P.O. No.	Terms	Due Date	Account #	Project
	Due on receipt	11/21/2024		
Description		Qty	Amount	Sub Totals
On 11-20-24 went to the site to find out why the printers aren't working. We found that AT&T was there before us and when they left the site the printers weren't working. Called Toast tech support and they wanted us the find the toast router. and we couldn't. We tried but it wasn't there and AT&T tech (Jason wasn't answering his phone after 6:00pm. We left the site and we would return the next day. 3:00 to 7:00		3.5	120.00	420.00T
We returned on 11-21-24 and talked to the AT&T tech and he said that he removed all the cords from the router and put it next to the new AT&T router. We looked everywhere but couldn't find it. Even sent pictures to the tech and he said he don't know what happened to it. Tom told us to have Toast get them to overnight it to us. But They had to get it and program it then overnight it to the sight. We cleaned the data cables and replaced all the old ones with new patch cords. Wiped the grease off the equipment. Replace the data switch with a new netgear 16 port and through the old ones in the garbage will have to return after the new router gets there. 2:00 to 6:00		4	120.00	480.00T
			120.00	120.00T
Netgear 16 port 10/100/1000 data switch		1	69.95	69.95T

Thank you for your business.
