

Important Messages:

Electric GSA customers may track their usage with the graphs on this bill, online, or via the mobile app. GSA classifications are based on the highest usage (kWh) or demand (kW) in the latest 12 months. If a customer's monthly usage exceeds certain thresholds, they will be re-classified and remain at that classification until the latest 12-month high values have dropped below the threshold. For GSA1, the threshold is 50 kW or 15,000 kWh. Usage thresholds for each GSA classification are defined in the GSA and GSA-TOU rate schedules. Rate schedules and the current applicable rates are posted at www.kub.org/bizrates.
